EXPERIENCE

UX/UI Designer

Binfinity - Tokyo, Japan 1.2018 - present

I work on all levels of design, from ideation to final output for a company in the cryptocurrency space. I work closely with product owners and developers on web and iOS applications.

UX Designer

Fusion Systems Group - Tokyo, Japan 5.2017 - 12.2017

I worked closely with stakeholders and developers on web based restaurant management software in an Agile development environment.

Freelance UX/UI Designer

Blair the Designer - Seattle, WA 8.2016 - 5.2017

I provided clients with user experience and interface design solutions that met both user needs and business goals. I worked with product managers, developers and other designers to create user-centered designs on web, iOS and Android platforms.

Instructional Assistant (UX Design)

General Assembly - Seattle, WA 11.2016 - 2.2017

I assisted instructors with curriculum creation, lesson planning, and student evaluations. I planned a cross-functional hackathon.

English Teacher

Ibaraki, Saitama and Tokyo, Japan 4.2006 - 3.2008 / 4.2011 - 3.2016

I worked in a total of twenty-two different elementary and junior high schools in the Greater Tokyo area. I collaborated with teachers to make lessons and activities tailored to different grades and skill levels. I acted as a cultural ambassador for my students. I participated in school functions and after school activities.

Graphic Designer / Letterpress Printer

Bell'Invito Letterpress Studio - Dallas, TX 2.2009 - 8.2009

I worked with clients, marketers, designers and printers to develop custom, couture letterpress stationery. I was also responsible for the creation of web graphics for the company website, and file preparation for die creation. I also operated 19th-century letterpresses for printing and die-cutting, as well as assembly of stationery.

Assistant Graphic Designer

Standard Deluxe, Inc. - Waverly, AL 5.2005 - 2.2006

I worked with clients, designers and printers to create designs for silk screen printing. I worked with web developers to create web graphics and input data for the company website and web store.
