Hi, I'm Blair. I have been putting people first for over 13 years as a User Experience Designer, User Interface Designer, Graphic Designer and educator. I like encountering new problems and working with others to find solutions to them. I also enjoy coffee, drawing, music, making things, and wear too much indigo and denim.

## Experience

### UX/UI Designer   Binfinity   1.2018 - 7.2021
I worked on all levels of design, from ideation to final output for a company in the cryptocurrency space. I worked closely with members of a multidisciplinary team applying user-centered design principles to web and mobile applications.

### UX Designer   Fusion Systems Group   5.2017 - 12.2017
I worked on a web based restaurant management software suite in an Agile development environment. I worked closely with stakeholders, developers and lead UX designer applying user-centered design principles to the project.

### Freelance UX/UI Designer   Blair the Designer   8.2016 - 5.2017
I provided clients with user experience and interface design solutions that met both user needs and business goals. I worked with product managers, developers and other designers to create user-centered designs on web, iOS and Android platforms.

### Instructional Assistant (UX Design)   General Assembly   11.2016 - 2.2017
I assisted instructors with curriculum creation, lesson planning, and student evaluations. I planned a cross-functional hackathon.

### English Teacher   4.2006 - 3.2008 / 4.2011 - 3.2016
I worked in a total of twenty-two different elementary and junior high schools in the Greater Tokyo area. I collaborated with teachers to make lessons and activities tailored to different grades and skill levels. I acted as a cultural ambassador for my students. I participated in school functions and after school activities.

### Graphic Designer / Letterpress Printer   Bell'Invito Stationers   2.2009 - 8.2009
I worked with clients, marketers, designers and printers to develop custom, couture letterpress stationery. I was also responsible for the creation of web graphics for the company website, and file preparation for die creation. I also operated 19th-century letterpresses for printing and die-cutting, as well as assembly of stationery.

### Assistant Graphic Designer   Standard Deluxe, Inc.   5.2005 - 2.2006
I worked with clients, designers and printers to create designs for silk screen printing. I worked with web developers to create web graphics and input data for the company website and web store.

## Education

### UX Design Immersive   General Assembly   2016
### Bachelor of Fine Arts in Graphic Design   Auburn University   2000 - 2005
